MERN STACK DEVELOPER

I am a Full-Stack Web Developer with more than two years of experience building scalable, secure web applications for startups. Skilled in React, Next.js, Tailwind CSS, Node.js and MongoDB. I develop high-performance solutions with optimized databases and APIs. I excel in cross-functional collaboration, delivering efficient, user-centric applications that drive business growth and solve real-world problems.

STRENGTHS AND EXPERTISE

Problem-Solving & Critical Thinking	Collaboration & Teamwork	Team Leadership
Business Development	Adaptability & Continuous Learning	Time Management
Strategic Planning	Operations Management	Communication skill

PROFESSIONAL EXPERIENCE

FULL-STACK WEB DEVELOPER Freelance / Self-employed

Dec 2024 - Present

As a freelance Full-Stack Web Developer, I design and build scalable, secure, and high-performance web applications. My work involves end-to-end development, from front-end interfaces to back-end logic

- Design and develop scalable web applications using modern technologies such as React, Next.js, and Node.js.
- Implement and optimize database solutions with MySQL and MongoDB to ensure efficient data storage and retrieval.
- Develop and integrate APIs for seamless communication between front-end and back-end components.

BACK-END DEVELOPER CyAxiom (Web3 Bootcamp)

Jun 2023 - Nov 2024

As a Back-End Developer at [@CyAxiom](#), I focused on building scalable and secure server-side solutions for Web3 applications. My role involved database architecture, API development, and optimizing server logic to enhance performance.

- Designed and managed database architecture, logic, and implementation for a Web3-focused platform.
 - Developed and optimized APIs and server-side logic to ensure high-performance data retrieval and storage.
 - Collaborated with cross-functional teams to achieve project milestones and deliver high-quality Web3 solutions.
-

PAYMENT SYSTEM INTEGRATION /STRIPE

Mar 2023 - Jun 2023

Kids Goal Soccer Academy

Designed and developed [@KGSA](#) dynamic soccer academy platform with online registration, payment integration, and event management.

- Developed a full-featured platform for child registration and academy management.
- Integrated secure payment processing (Stripe) for online enrollment.
- Developed an event announcement system for notifying parents about training schedules and academy updates.
- Optimized the platform for performance, security, and mobile responsiveness.

JUNIOR WEB DEVELOPER

Aug 2022 - Mar 2023

Evangadi Bootcamp Community

As a Junior Web Developer [@Evangadi](#) Bootcamp, I collaborated with developers to build real-world projects while gaining hands-on experience in full-stack development. My work involved API integration, database management, and team-based coding.

- Collaborated with developers, participated in code reviews, and contributed to group projects.
- Developed and integrated RESTful APIs with MySQL and MongoDB.
- Gained hands-on experience in full-stack development through real-world projects and mentorship.

Professional Skills

Programming Languages & Technologies

- JavaScript (ES6+), C++, Solidity
- Node.js, React.js, Next.js, Tailwind CSS
- HTML5, CSS3, TypeScript.

Backend & Database Management

- MySQL, MongoDB, PostgreSQL
- Database Design & Optimization
- RESTful & GraphQL API Development

Blockchain & Web3 Technologies

- Smart Contract Development (Solidity, Hardhat, Truffle)
- Ethereum & Binance Smart Chain (BSC)
- Web3.js & Ethers.js

CERTIFICATION

FULL-STACK WEB DEVELOPMENT

Evangadi Bootcamp, USA
Completed In 2023

DATABASE ANALYSIS

Udacity
Completed In Sep 2023
